# Admin menu items

When you are logged in as an administrator, the system provides five modes of operation: Administration, Members, eGreeting Cards, Advance Options, Email Tool.

The screenshot shows the eCardMAX 2008 Admin interface. At the top, there is a navigation bar with buttons for 'Admin Index', 'Homepage', 'Holiday/Event', and 'Feedback'. Below this is a secondary navigation bar with buttons for 'ADMINISTRATION', 'Members', 'eGreeting Cards', 'Advance Options', and 'EMAIL TOOL'. The main content area is titled 'Site statistics' and contains a table with two columns of statistics. Below the table is a 'Quick User Finder' section with a search input field and two buttons: 'Search User' and 'List All Account'.

Statistic	Value	Statistic	Value
Total members	1213	Your eCardMAX version	2008
New members today	0	eCardMAX latest version	
Members requested to cancel account	1	PHP version	4.4.3
Number of Free member accounts	0	MySQL Version	4.1.22-standard
Number of Paid member accounts	1213	Database size	943,892 bytes
Total eCards have been sent	426	Image files were uploaded by members	32
eCards create today	0	Music files were uploaded by members	7
eCards created yesterday	0	Poems were created by members	6

## The gallery configuration page

This is where you will configure the most important parts of your general public. For this reason, it is important that you spend time with your setup at the early stages of gallery development to get those settings exactly the way you want them, before actually change settings to the general public.

Webmaster email

Your site title

When the receiver receives email notify to pickup ecard, what do you like to show in From Name and From Email field?

If you select "Site's title and Site's email" then enter your site email address. **Please note:** For example if your domain is **www.ecardmax.com**, then Site Email Address should be something like this: **info@ecardmax.com**, **service@ecardmax.com** (end with your domain)

Send email using SMTP server?

Set meta tag **Keyword** for home page (separate keyword with comma , )

Set meta tag **Description** for home page

Turn Horizontal banner

Turn Vertical banner

Disable right click (use JavaScript) to prevent user copy your images?

Enable Black list feature. User can subscribe their email to this list and never receive any email from your site again.

Use **easy edit template feature**. Select Yes, program will print on the screen this image [\[Page Info\]](#) . Click on this image will tell you which html file name you need to edit (helpful while you design your site), select No to turn this feature off or when you go live your site

Date format

Summer Time/DST is in effect:

Set server Time Zone   Nov 03 2007 - 9:34:20 AM

Number of thumbnail images per row

Number of row per page

HotEditor Key code

eCardMAX Key code

ePhotoHunt Game Key code

eCardMAX Java Applet Key code

**DSEffect** Key code (visit their website to buy Key code)

**Anfy** Key code (visit their website to buy Key code)

Please do not remove eCardMAX copyright footer unless you buy Gold version.

## General

Administration => System Configuration => General

Value	Description
<b>Webmaster email</b>	All emails sent by the gallery will be sent using this email address. This must be a valid email address.

<b>Your site title</b>	Enter the name of your gallery in this text field. The name you enter will appear as the title that is displayed in the web browser's title bar and is also displayed in many of the different theme templates.
<b>Set meta tag Keyword for home page</b>	The meta keywords tag allows you to provide additional text for crawler-based search engines to index along with your body copy.
<b>Set meta tag Description for home page</b>	The meta description tag allows you to influence the description of your page in the crawlers that support the tag.
<b>Turn Horizontal banner</b>	Yes: horizontal banner will be shown at front end. No: horizontal banner will be hidden at front end.
<b>Turn Vertical banner</b>	Yes: vertical banner will be shown at front end. No: vertical banner will be hidden at front end.
<b>Disable right click (use JavaScript) to prevent user copy your images?</b>	Yes: Disable right click on front end to prevent users from stealing website's images. No: accessing the right click menu, users can be used to copy and save the images.
<b>Enable Black list feature. User can subscribe their email to this list and never receive any email from your site again.</b>	To secure your site against spammers enable the feature. Yes: enable the feature. No: disable the feature. Today, most people on the internet have dynamic IP addresses that are assigned to them when connecting to the internet by their Internet Service Provider. These IP addresses change each time the user connects to the internet, but during an internet session these IP addresses are "visible" at the web-sites that thee user is surfing. Within the range of all IP addresses (0.0.0.0 to 255.255.255.255), certain ranges are reserved for special purposes (mostly for the use on private networks). The banning feature will not accept IP addresses banning of addresses that belong to these private ranges (e.g. 192.168.0.1). This is necessary to prevent unexperienced, as well as experienced, eCardMax admin from banning IP addresses within their own LAN. If you're actually running eCardMax on your LAN/WAN that uses private IP addresses (e.g. on a company's intranet) and you want the authority to be able to ban users, switch this option to "Yes". If you're running eCardMax on a web server located in the

	internet (e.g. you're web hosted), you should keep this option set to "No". If you don't use banning at all, you can safely ignore this setting completely.
<b>Use easy edit template feature.</b>	Yes: Select yes, program will print on the screen this image  . Click on this image will tell you which html file name you need to edit (helpful while you design your site), select No to turn this feature off or when you go live your site No: Select no, program won't print that image.
<b>Date format</b>	This is the format of the outputted date string. See the formatting options below: DD MM YYYY MM DD YYYY YYYY DD MM YYYY MM DD
<b>Set server Time Zone</b>	Specify the time zone difference between your local time and the time zone your web server is in. This value will be used to adjust time stamps in eCards and other places.
<b>Number of thumbnail images per row</b>	This sets the maximum images of the thumbnails that are to be displayed for each row. Default value is 3 this means that each row will show 3 thumbnails.
<b>Number of row per page</b>	This sets the maximum row of the thumbnails that are to be displayed for each page. Default value is 3.
<b>HotEditor Key code</b>	Enter keycode to remove link back to HotEditor site
<b>eCardMAX Key code</b>	Enter keycode to remove link back to eCardMAX site.
<b>ePhotoHunt Game Key code</b>	Enter keycode to remove link back to ePhotoHunt site.
<b>eCardMAX Java Applet Key code</b>	Enter keycode to remove link back to eCardMAX site.
<b><u>DSEffect Key code (visit their website to buy Key code)</u></b>	
<b><u>Anfy Key code (visit their website to buy Key code)</u></b>

Set all cards for members only when you upload new cards?  ▾

# Install Invitaion 2008

This document will walk you through the basics on installing the add-on Invitaion for eCardMAX 2008 software.

**Version: 2008-1**

## 1. Requirements

- You are running eCardMAX 2008

## 2. Quick Install

1. Decompress the Invitation 2008 archive to a local directory on your system.
2. Upload all the files contained in this archive (retaining the directory structure) to eCardMAX 2008 directory on your server or hosting account.

- Using your web browser visit the location you placed eCardMAX 2008 with the addition of install.php, e.g. <http://www.mydomain.com/greetings/install.php>

### 3. Important

Once you have successfully installed eCardMAX 2008 you MUST ensure you remove /install.php. Leaving it in place is a very serious potential security issue which may lead to deletion or alteration of files, etc.

## Invitation Card Settings

Administration => System Configuration => Invitation Card Settings

- [Maximum Font file member can upload](#)
- [Invitation Card expired after](#)

The screenshot shows the 'System Configuration' page with a navigation bar containing tabs for General, Tell Friend & Birthday Alert, eCard Settings, Invitation Card Settings (selected), Styles, Watermark Settings, Member Album, and Gold Version Settings. Below the navigation bar, there are two settings: 'Maximum Font file member can upload. Set 0 for unlimited' with a text input field containing the value '5', and 'Invitation Card expired after' with a text input field containing '60' followed by the text 'days'.

## Styles

Administration => System Configuration => Styles

Value	Description

2.

## Watermark Settings

Administration => System Configuration => Watermark Settings

### 1. Webmaster position

Determines where the watermark is supposed to be displayed on each picture. Possible options are:

- Bottom right
- Bottom left
- Up right
- Up left
- Center

### 2. Webmaster Opacity

Determines the transparency level for the watermark. By setting transparency you can make your image blend nicely into the pictures you upload that get watermarked.

The screenshot shows the 'System Configuration' interface with a gear icon and the title 'System Configuration'. Below the title is a horizontal menu with tabs: 'General', 'Tell Friend & Birthday Alert', 'eCard Settings', 'Invitation Card Settings', 'Styles', 'Watermark Settings' (which is highlighted in blue), 'Member Album', and 'Gold Version Settings'. The 'Watermark Settings' section contains two rows of settings. The first row is labeled 'Webmaster position' and has a dropdown menu set to 'Bottom Right'. The second row is labeled 'Webmaster Opacity (number from 1 to 100) - Default = 30' and has a text input field containing '30' followed by a '%' sign.

## Member Album

Administration => System Configuration => Member Album

Value	Description
Allow members to upload their own images	Yes: allow No: disabled
Allow members to upload their own music files	Yes: allow No: disabled
Allow members to upload their own stamp files	Yes: allow No: disabled

## Gold Version Settings

To turn Payment feature ON you need to login to eCardMAX admin area, click the link System Configuration - scroll down to bottom page - go to section Gold Version Settings, then answer Yes for question "Enable 2CheckOut test mode?"

**Administration => System Configuration =>Gold Version Settings**

The screenshot shows the 'System Configuration' page with a navigation bar containing tabs for 'General', 'Tell Friend & Birthday Alert', 'eCard Settings', 'Invitation Card Settings', 'Styles', 'Watermark Settings', 'Member Album', and 'Gold Version Settings'. The 'Gold Version Settings' tab is active. The form contains the following fields:

- 'Enable 2CheckOut test mode ? (Select YES to test 2CO Payment - use credit card number 123456789112345)' with a dropdown menu set to 'Yes'.
- 'Enter your 2CheckOut secret word' with a text input field containing 'alloveai'.
- 'Enter your 2CheckOut Sid number (seller ID number)' with a text input field containing '28715'.
- 'Your primary PayPal email address' with a text input field containing 'htkhai2@gmail.com'.

## How to integrate eCardMAX to 2CheckOut payment processor

If you don't have 2CheckOut.com account, then click here to get one (No Waiting Weeks, Start Selling in just a Few Minutes - that's true).

First, you need to enable payment feature: Log in to eCardMAX Admin area, click the link System Configuration - go to section Gold version only, then answer Yes for question "Would you like to enable 2CheckOut and PayPal payment?"

You have to rename the script 2checkout.php. For example: rename it to Abnd2543Ps.php (it likes the password - hard to guess and you don't have to remember it). Please do not modify the php code inside unless you know what you are doing.

Next, click the link below to login to your 2Checkout.com member area

**<https://www.2checkout.com/2co/login>**

At the main page select the link Set Up Product

## Account Homepage

Welcome to your sellers configuration area!

**First time here, be sure to look at the following.**

No matter what you want to sell, start by setting up your...

1. [Bank Account & Payment Details.](#)
2. [Additional Site Information.](#)
3. [Vendor Contact Information](#)
4. [Set Up Products.](#)
5. [Shipping Methods](#) or [e-good allowable countries.](#)
6. [Business Contact Information.](#)
7. [Setting Up Your Site.](#)

**Always be sure to keep your information up to date.**

Next page - click the link on your right hand side New Recurring Product.

Then fill out the form - See image below

**Name (no special characters):**  ?  
Name as it will appear on receipt.

**Your Product ID:**  ?

**Short Description:**  ?  
Displays at checkout.

**Long Description:**  ?  
Displays on product page.

**Price: (\$)**  ?

**Start Up Fee:**  ?

**Weight: (lbs)**  ?

**Handling:**  ?

**Tangible: ?**  Yes  No

**Pending URL:**

**Approved URL:**

**Recurrence: ?** Bills every   ?

**Duration: ?** Continue Billing for   ?

**Product Complete ?**  Yes  No ( Approves/Disapproves product for shopping center inclusion )

Enter the URL of script Abnd2543Ps.php in field Approved URL.

Click Create Recurring Product button when you done, then go back to Set Up Products page you will see this

# Products for #28715

[Back to Vendor Information Page](#)

[Back to Home](#)

Search by Name or Product ID

Product ID

Your Product ID

Product Name

Products Per Page

Product ID	Your Product ID	Name	Shop Status	Actions	Price
1	Test 2CO	Membership greeting card	Not Submitted	<a href="#">Image</a> <a href="#">Edit</a> <a href="#">HTML</a>	10.00

Now, please remember your Product ID is 1

Next, go back to Account Homepage, inside Helpful Link table - click the link Look & Feel Settings

Helpful Links	
Manage Usernames	<a href="#">Manage</a>

Next page, select Yes for Direct Return, then enter the URL of script Abnd2543Ps.php

### Direct Return

---

If set to Yes buyers will be immediately directed to your URLs below once they click the Complete Order button. If set to No the buyers will have to click a button to return to your URLs below.

Note: You MUST get your passbacks working with direct return turned OFF before we will help you with a problem with direct return turned ON.

### Approved, pending and affiliate area

---

#### Approved URL

Input a url for your customers to be sent to on a successful purchase.

  
Example: https://www.yoursite.com/yourscript.php

#### Pending URL

Input a url for your customers to be sent to when a purchase cannot be verified immediately.

  
Example: https://www.yoursite.com/yourscript.php

Scroll down to set your Secret Word, then click Save Changes button

Now, login to eCardMAX admin area, scroll down to bottom page, at section Gold version only enter your 2CheckOut secret word, your 2CheckOut sid number (seller ID number) and your 2CheckOut product\_id number.

To test 2CheckOut payment script, answer Yes for question Would you like to turn ON 2CHECKOUT TEST MODE?

Go to your eCardMAX homepage, click button Join Now to test 2CheckOut payment script. Use credit card number 123456789112345 to make the payment.

When you go live your site you MUST turn OFF 2CheckOut Test Mode (say No for question Would you like to turn ON 2CHECKOUT TEST MODE?)

## How to integrate eCardMAX to PayPal payment processor

If you don't have PayPal.com account then click here to get one. Please note: You have to become a PayPal verified member in order to sell product on your site.

First, you need to enable payment feature: Log in to eCardMAX Admin area, click the link System Configuration - go to section Gold version only, then answer Yes for question "Would you like to enable 2Checkout and PayPal payment?"

Then, enter Your primary PayPal email address

Please note: If you have 2 or more Paypal email accounts then you have to use your Primary PayPal email account. To know which email account is your primary account then do this:

- Login to your PayPal member area
- Click "My Account" tab then click the link Instant Payment Notification (Selling Preferences)

Next page you have to click "Edit IPN Settings" button

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

### Instant Payment Notification (IPN)

[Back to Profile Summary](#)

Instant Payment Notification (IPN) is a PayPal feature that sends messages about payments (and other transactional events) directly from PayPal to your website(s)' back-end systems. You can view up to 28 days worth of messages. You can also

- Resend messages not received by your website(s)' back-end systems
- Temporarily stop receiving messages (useful when performing maintenance on your back-end systems)

Messages are generated but stored at PayPal until you start receiving them again.

Use the IPN feature in these situations:

- Your service provider, cart provider or website developer has asked you to
- You have back-end systems that require IPN messages to automate business processes, such as creating shipping notifications and inputs to accounting applications.

[Learn more](#) about the IPN feature.

By clicking "Edit IPN Settings," you will be taken to the configuration page, where you determine where to send IPN messages and decide to start or stop receiving the messages.

And then you have to check **Receive IPN messages (Enabled)** and enter the URL of your paypal.php script - click **Save** button when you done.

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

### Edit Instant Payment Notification (IPN) settings

[Back to Profile Summary](#)

PayPal sends IPN messages to the URL that you specify below.

To start receiving IPN messages, enter the notification URL and select **Receive IPN messages** below. To temporarily stop receiving IPN messages, select **Do not receive IPN messages** below. PayPal continues to generate and store IPN messages until you select **Receive IPN messages** again (or turn off IPN).

Notification URL

IPN messages

- Receive IPN messages (Enabled)
- Do not receive IPN messages (Disabled)

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

### Instant Payment Notification (IPN)

[Back to Profile Summary](#)

You have turned on the IPN feature. You can view your IPNs on the [IPN History page](#). If necessary, you can resend IPN messages from that page. For more information on using and troubleshooting this feature, read more about [Instant Payment Notification \(IPN\)](#).

To stop receiving IPNs permanently, click **Turn Off IPN**.

#### Current settings

Notification URL <http://Yoursite.com/greetings/paypal.php>  
 Message delivery **Enabled**

- Edit settings
- Turn Off IPN

Go back to “My Account” tab and click the link “Payment Receiving Preferences”

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

- Overview
- Add Funds

## Payment Receiving Preferences

[Back to Profile Summary](#)

**Note:** If you are using IPN, you must update your scripts to handle payments in currencies other than U.S. Dollars. [Learn More](#)

Block payments sent to me in a currency I do not hold:

- Yes
- No, accept them and convert them to U.S. Dollars
- Ask Me

Block accidental payments:

You may prevent accidental payments by blocking duplicate invoice IDs

- Yes, block multiple payments per invoice ID
- No, allow multiple payments per invoice ID

Block payments from users who:

- Initiate payments from the Pay Anyone subtab of the Send Money tab  
(If checked, you may enter an Alternate Payment URL for your buyers.)

Alternate Payment URL:  ?

(optional)

Block the following payments:

- Pay with eCheck or German bank transfer for all website payments except eBay. **NOTE:** You may not block eCheck payments on eBay.

Display "Add Instructions to Seller" text input field:

- Yes
- No

The Credit Card Statement Name is the name that will appear on your customers' credit card statements.

The name can be 11 alpha-numeric characters in length, including spaces.

For some payments, the name can be extended to 19 alpha-numeric characters in length, including spaces.

[Learn More](#)

Credit Card Statement Name:  (11 Character Maximum)

Extended Credit Card Statement Name:  (19 Character Maximum)

## View Black List Email

To help you manage your list email that you don't want to send mail when someone use it on your website, there is a black list email manager available - just click on the corresponding link in the admin menu.

**Administration => View Black List Email**

All collectors in this black list are added by administrator of the site. In here, administrator can delete or set status for any users.

- All emails found in this list which were marked Active will be blocked. System will not send any email message or ecard to them.
- Emails which were marked Pending will not be blocked.
- If users don't want to receive any email from your site, they can add their email to this list (via user interface). Admin can add/remove their email here.

 **View Black List Email (Total 6)**

[+ Click here to add new email to black list](#)

**Notes:**

- All emails found in this list which were marked **Active** will be blocked. System will not send any email message or ecard to them.
- Emails which were marked **Pending** will not be blocked.
- If users don't want to receive any email from your site, they can add their email to this list (via user interface). Admin can add/remove their email here.

Icon	Email	More Info	Status	Remove	
	capulet_som@yahoo.com	<b>Active</b> Server will not send anything to this email	Active		<input type="checkbox"/>
	khoi@cgi2k.com	<b>Active</b> Server will not send anything to this email	Active		<input type="checkbox"/>
	tilysoft@vnn.vn	<b>Active</b> Server will not send anything to this email	Active		<input type="checkbox"/>
	alk1214@yahoo.com	<b>Pending</b> User still receive ecard and other email	Pending		<input type="checkbox"/>
	rlblankenship@hotmail.com	<b>Pending</b> User still receive ecard and other email	Pending		<input type="checkbox"/>
	seowkang@hotmail.com	<b>Pending</b> User still receive ecard and other email	Pending		<input type="checkbox"/>

Display row per page  Delete Selected 

Administrator can add new email to black list by clicking “Click here to add new email to black list” link at the top of the page and filling in the form that will come up.

 **View Black List Email (Total 6)**

 [Click here to add new email to black list](#)

**Add new email to black list** 

Enter email address line by line

## Ban User IP/Email

Ban users based on hostname or IP address. Make sure not to ban yourself! Use this feature with extreme caution, as most users today do not have static IP addresses, this feature should only be employed if you really know what you're doing.

Click on the corresponding link in the admin menu.

[Administration => View Black List Email](#)

 **Ban IP/Email (Total 1)**

[Click here to add new IP/Email to ban list](#)

Tips:

- **Ban IP Address:** will prevent a user reaching any part of your ecard site.
- **Ban Email Address:** will prevent a user sign up new account or send ecard by using that email.

Icon	IP/Email	Length of ban (MM/DD/YYYY)	UnBan
	255.20.20.2 Reason: <a href="#">Spam</a>	10/29/2027 	 <input type="checkbox"/>

Display row per page  Search IP/Email  Search  

You can add new IP/Email to ban list by clicking “Click here to add new IP/Email to ban list” and fill in the form that will come up.

### Ban IP/Email (Total 1)

[Click here to add new IP/Email to ban list](#)

#### Add new IP/Email to ban list

Enter an IP or Email address  
(Line by line)

Example:  
111.222.\*.\*  
myname@email.com  
117.6.44.73

255.20.20.2

Length of ban: Forever

Reason for ban: Spam

**Tips:**

- **Ban IP Address:** will prevent a user reaching any part of your ecard site.
- **Ban Email Address:** will prevent a user sign up new account or send ecard by using that email.

## Show Member Accounts

The user control panel can be found when clicking “Show Member Accounts” from the members menu. It is the place where you create and manage your users.

Members => Show Member Accounts

A screenshot of the 'Show Member Accounts' page. The page title is 'Show Member Accounts (total 1214)'. There is a search bar and a tip: 'Tip: Click account user name id to view account detail.' Below the tip, it says 'Total members: 1214'. A table lists member accounts with columns for 'Account Information', 'Edit Member Group', 'Account Status', and 'Delete'. The table contains 15 rows of data, each with a username ID, membership type (all 'Free Basic membership'), and status (all 'Active'). At the bottom, there is a 'Display row per page' dropdown set to '15' and a 'Suspend/Delete Selected' button. A pagination bar at the very bottom shows page numbers 1, 2, 3, 4, ..., 78, 79, 80, 81.

## Page controls

- You can change number of users show per page by enter a number in display row per page box.

- If you have more than 15 users, a page tab will appear at the bottom right of the screen, allowing you to go to subsequent pages of your member list
- Clicking on a user's name will display the profile page of the individual user (read only)

The screenshot shows the 'Members' management interface. At the top, there are navigation tabs: ADMINISTRATION, Members, eGreeting Cards, Advance Options, and EMAIL TOOL. A 'Show Member Account' window is open, displaying 'Account Information Detail' for user 'webmaster@uae4ever.net'. The main table shows a list of users with columns for Username ID, Membership, Account Status, and Delete. A tooltip points to the 'webmaster@uae4ever.net' link in the Username ID column.

Account Information Detail	Account Status	Delete
Account id number: 80	Active	<input type="checkbox"/>
User name id: webmaster@uae4ever.net	Active	<input type="checkbox"/>
User password: 123456	Active	<input type="checkbox"/>
Email: webmaster@uae4ever.net	Active	<input type="checkbox"/>
Total cards sent: 0	Active	<input type="checkbox"/>
Number of time login: 0	Active	<input type="checkbox"/>
Date sign up: 17 Feb 2006 - 7:46:13 PM	Active	<input type="checkbox"/>
Last login: 17 Feb 2006 - 7:46:13 PM	Active	<input type="checkbox"/>
First last name: uae4all	Active	<input type="checkbox"/>
Phone number:	Active	<input type="checkbox"/>
Address:	Active	<input type="checkbox"/>
City:	Active	<input type="checkbox"/>
State:	Active	<input type="checkbox"/>
Zipcode:	Active	<input type="checkbox"/>
Country:	Active	<input type="checkbox"/>
Birthday (MM/DD): 0 0	Active	<input type="checkbox"/>
Gender: Male	Active	<input type="checkbox"/>
Marital Status: Single	Active	<input type="checkbox"/>
Payment order number: -	Active	<input type="checkbox"/>

Membership: Free Basic membership	Active	<input type="checkbox"/>
Membership: Free Basic membership	Active	<input type="checkbox"/>
Membership: Free Basic membership	Active	<input type="checkbox"/>
Membership: Free Basic membership	Active	<input type="checkbox"/>

- The "Member Group" column displays the primary member group the user is in, you can change member group for any user.
- The "Account Status" column displays status of user.
- You can change a number of settings for several users at once by clicking the checkbox in back of the user row (use the checkbox at the very top or bottom of the page to select/unselect all users on the page) and then choosing an action to perform from the dropdown box "Suspend/Delete Selected" at the bottom left of the page. The actions you can choose from are "Suspend" or "Delete".

## Searching for user(s)

**Show Member Accounts (total 1214)** Set Member Group for all users

## View Member Album

eCardMax stores files inside of albums, so you'll need at least one album for your pictures/files to be placed in. Albums can be stored in categories (but they don't HAVE to be in a category, they can just as well go into the eCardMax "root").

When you click on "albums" in the members menu, you will see the Album Manager.

### Members => View Member Album

There is a menu displayed next to album:

- Show member photos: allows you to view or delete photos.
- Show member audio files: allows you to view or delete audio files.
- Show member poems: allows you to view or delete poems.

 Show Member Photos (total: 27)

- Click on the album you want to delete
- Click the "Delete" button
- Confirm the alert box with "OK" (Are you sure you want to delete your selected?)

# eGreeting Cards

## Set Price Pay Per Card

When you set up a Pay Per Card service, you can set price for feature cards.

eGreeting Cards => Set Price Pay Per Card

A screenshot of the 'Set Price Pay Per Card' configuration page. At the top left is a yellow header with a dollar sign icon and the text 'Set Price Pay Per Card'. Below this is a grey bar with a green plus icon and the text 'Click here to add new price'. The main area contains a table with two columns: 'Buy Title 1 + Link 1' and 'Buy Title 2 + Link 2', plus a 'Delete' column. The first row shows a price of \$ 1.49. The second row shows a price of \$ 2.95. Each row contains text for 'Buy now title 1', 'Buy now link 1', 'Buy now title 2', and 'Buy now link 2'. The links are displayed in text boxes with scroll bars. The 'Buy now link 2' text boxes contain long URLs for PayPal transactions.

You can add new price to list by clicking “Click here to add new price” and fill in the form that will come up.

 **Set Price Pay Per Card**

+ Click here to add new price

**Fill out the form below to add new price** ✖

New Price *	\$ <input type="text" value="0.00"/>
Buy now title 1 * (example: Buy now from 2Checkout)	<input type="text"/>
Buy now link 1 * (example: enter 2CheckOut buy now link here)	<input type="text" value="http://"/>
	<a href="#">Click here</a> to auto create PayPal buy now link (base on the new price above and your paypal primary email address)
Buy now title 2 (example: Buy now from Paypal)	<input type="text"/>
Buy now link 2 (example: enter Paypal buy now link here)	<input type="text" value="http://"/>
	<a href="#">Click here</a> to auto create PayPal buy now link (base on the new price above and your paypal primary email address)
<span style="border: 1px solid red; padding: 2px;">Submit</span>	

## Manage eCard

In here, you can manage all categories, eCards. This is important of front end. It configures all categories, eCards will be shown.

eGreeting Cards => Manage eCard

- Check/Uncheck checkbox to activate/deactivate category
- Click birthday cake 🎂 to set Birthday category (eCardMAX will pick ecard in this category and auto send it to registered users when their birthday is near.
- Icon 📁 will tell you that category has subcategory
- Icon 🗑️ will tell you there is no subcategory
- Click icon 📁 or 🗑️ to open that category
- Click category name (underline words) to rename category.
- See more commands at bottom page.

### Manage eCard (70 categories - 627 ecards)

Category Navigation: [Main Root](#) >>

[Show help for this page](#) [Visit this category \(User interface\)](#)

Category Name	#Sub category	#eCards	Set Birthday category	Active/Inactive	Delete	Sort Order
 <a href="#">Birthday</a>	6	86		<input checked="" type="checkbox"/>		1 <input type="button" value="v"/>

**How to add new Skin by using FTP program?**

1. Use FTP login to your server, go inside folder  
/home/ecardmax/public\_html/gold\_2007/resource/skin
2. Let's say you want to add new Skin name **MyXSkin**. Use FTP to create subfolder  
/home/ecardmax/public\_html/gold\_2007/resource/skin/MyXSkin
3. Start uploading skin's files to folder [MyXSkin]. (Note: You must include file color.txt)
4. After you're done uploading your files, [CLICK HERE](#) to insert your new skin to database.

## Manage Stamp

Allows administrator to control and manage website's stamp collection.

**Advance Options => Manage Stamp**

Advance Options    EMAIL

- Manage Java Applet
- Manage eCard Skin
- Manage Stamp**
- Manage Music
- Manage Poem
- Manage Quote
- Manage Banner Ad
- Manage Game

- Check the checkbox to enable Stamp. Uncheck the checkbox will disable that Stamp.
- Click Stamp name to rename it
- If you want to change Stamp thumbnail icon, edit image /resource/stamp/[File\_Name].gif
- Delete Stamp is not recommended, use Enable/Disable instead.

### Add/Enable/Disable/Delete Stamp (Total 21)

 Click here to add new Stamp

**Tips:**

- Check the checkbox to enable Stamp. Uncheck the checkbox will disable that Stamp.
- Click Stamp name to rename it.
- If you want to change Stamp thumbnail icon, edit image /resource/stamp/[File\_Name].gif
- Delete Stamp is not recommended, use Enable/Disable instead.

Mysql table Stamp has been updated

Dear eCardMAX User,

We are pleased to announce the availability of the eCardMAX **2006-0720** package. With this release we used Ajax to create some great features.

Please come to our site to check out the new features list <http://www.ecardmax.com/index.php?step=eCardmax>, in here you can enter your 2Checkout order number to download the zip file.

Please feel free to test the demo at [http://www.ecardmax.com/standard\\_2006](http://www.ecardmax.com/standard_2006)

Best Regards,  
[eCardMax.com](http://www.ecardmax.com)

PS: If you are using add on Invitation program, you need to update it too (the zip file is available to download)

- Send a test email to **webmaster@ecardmax.com**
- Send email to all users on the list now

## eCardMAX Installation

### Step by Step to install eCardMAX 2008

If you have basic knowledge of using FTP and are sure your hosting service or server will run eCardMAX 2008 you can use these steps to quickly get started. Otherwise click [here](#) to learn the basic of WS-FTP program

1. Decompress the eCardMAX 2008 archive to a local directory on your system.
2. Upload all the files contained in this archive (retaining the directory structure) to a web accessible directory on your server or hosting account.
3. Change the permissions on config.php + config2.php to be writeable by all (777 within your FTP Client). For more information about how to chmod 777 files and folders please come [here](#)
4. Using your web browser visit the location you placed eCardMAX 2008 with the addition of install.php, e.g. <http://www.mydomain.com/greetings/install.php>
5. Follow the instruction on the welcome screen to chmod 777 other folders + files.
6. Click the link Go to next step to fill out all the requested information and hit Submit.
7. If you enter correct your MySQL account, eCardMAX 2008 should now be available.

When you run script <http://www.mydomain.com/install.php> you will see this:

## eCardMAX 2006

---

Welcome to eCardMAX 2006. Before you go to next step, please use FTP to chmod 777 list of files and folders below.

[Click here](#) to know how to use FTP to chmod 777 files and folder.

- chmod 777 folder admin/**sql\_backup**
- chmod 777 folder admin/**temp**
- chmod 777 folder resource/**music**
- chmod 777 folder resource/**picture**
- chmod 777 folder resource/picture/**user\_picture**
- chmod 777 folder resource/**richedit/upload**
- chmod 777 folder resource/**skin**
- chmod 777 folder resource/**stamp**
  
- chmod 777 file resource/games/ephotohunt/**count.txt + hiscore.txt + IP.log**
- chmod 777 file **config.php**
- chmod 777 file **config2.php**

[Click here](#) to go next step

Follow the instruction on the screen to chmod 777 the list of files and folders, then click the link [Click here to go next step](#) - you will see the form below

<input type="text" value="demo"/>	← Enter your Admin Password
<b>»eCard URL</b>	← Program will auto detect eCard URL
<input type="text" value="http://www.ecardmax.com/standard_2006"/>	
<b>»eCard Root Path</b> (eCardMAX will auto detect, if you see the text box field below is blank, then you have to fill out eCard Root Path) - <a href="#">Click here</a> to find out eCard Root Path	
<input type="text" value="/home/xxxx/public_html/standard_2006"/>	←
<b>»Database Server Host Name</b>	← Program will auto detect eCard Root Path If you see this text box is blank you need to find out your eCard Root Path and fill it out.
<input type="text" value="localhost"/>	
<b>»Database Name</b>	
<input type="text"/>	
<b>»Database User Name</b>	→ Fill out your MySQL account
<input type="text"/>	
<b>»Database Password</b>	
<input type="text"/>	
<input type="button" value="Submit"/>	

If eCardMAX can't auto detect your eCard Root Path, then visit the link "[click here to find out eCard Root Path](#)" - a long page of configuration info will appear. To find out eCard Root Path scroll down to find this:

Scroll down and find something like this:

Unix server: **/home/xxx/public\_html/greetings/install.php**

Then eCard Root Path will be: **/home/xxx/public\_html/greetings** (remove /install.php)

Window server: C:\wwwroot\greetings\install.php

Then eCard Root Path will be **C:/wwwroot/greetings**(You have to replace \ to / and remove /install.php)

<b>System</b>	Linux semidedicatedseason.websitewelcome.com 2.6.9-22.0.1.EL #1 Tue Oct 18 18:29:40 EDT 2005 i686
<b>Build Date</b>	Jan 16 2006 16:04:42
<b>Configure</b>	./configure --with-curl --with-gd --with-gettext --with-gmp --with-icu --with-ldap --with-mcrypt --with-mhash --with-mysql --with-pdo-mysql --with-pdo-sqlite --with-pgsql --with-readline --with-regex --with-session --with-simplexml --with-sockets --with-sqlite --with-ssh2 --with-tidy --with-xmlrpc --with-xsl

<b>_SERVER["REQUEST_URI"]</b>	/standard_2006/install.php?step=phpinfo
<b>_SERVER["SCRIPT_NAME"]</b>	/standard_2006/install.php
<b>_SERVER["PATH_TRANSLATED"]</b>	/home/xxxxxxx/public_html/standard_2006/install.php
<b>_SERVER["PHP_SELF"]</b>	/standard_2006/install.php

eCard Root Path will be : **/home/xxxxxxx/public\_html/standard\_2006**

Fill out your MySQL account then click Submit button.

If your hosting company supports site Admin CPanel, click here to see instruction how to create new MySQL account

### Copy/Convert MySQL table from eCardMAX 2006 to eCardMAX 2008

If you want to upgrade from eCardMAX 2006 to eCardMAX 2008, after you install eCardMAX 2008 you will need to run script convert.php, this program will copy/convert eCardMAX 2006's tables to version 2008.

This script comes with eCardMAX 2008 zip file.

## Set up Cron Job for Email Reminder Service

### What is cron job (cron tab)?

A Unix command for scheduling jobs to be executed sometime in the future. A cron is normally used to schedule a job that is executed periodically - for example, to send out an email notice every month, year. It is also a daemon process, meaning that it runs continuously, waiting for specific events to occur.

If you are running Windows server, you will need to set a "Scheduled Task" to run file greetings/cronjob.php every day at 12:01am (or 2:00am - whenever you like)

**Please note: You should rename file cronjob.php to xxzzyyuu.php (the filename likes a password) so that user can't run this file on their browser.**

If your server supports CPanel, then the instruction how to set up cronjob command below is for you

- Login to your Cpanel by using this URL: <http://mydomain.com/cpanel>

- Click on icon Cron jobs, see image below

- Next screen - click Advanced (Unix Style) button

- Next screen - Input data below then click button Commit Changes

Minute : 2  
Hour: 0  
Day: \*  
Month: \*

Weekday: \*

Command:

```
cd '/home/path/to/greeting_folder/greetings/' ; php -q cronjob.php -p processqueue > /dev/null ;
```

You can copy the command code below

---

### Top of Form

---

```
cd '/home/path/to/greeting_folder/greetings/' ; php -q cronjob.php -p processqueue > /dev/null ;
```

---

### Bottom of Form

Replace /home/path/to/greeting\_folder/greetings/ to your eCard Root path.

If you don't know what it is, you can look inside the script config.php, code

```
$ecard_root = "/xxx/xxx/xx/greetings";
```

Minute: 2 - Hour: 0 - Day: \* - Month: \* - Weekday: \* means: your server will auto run the script <http://YOU.COM/greetings/cronjob.php> everyday at 12:02 am (after midnight 2 minutes)

If you want to run the script cronjob.php everyday at 3:30am then input like this:

```
Minute: 30 - Hour: 3 - Day: * - Month: * - Weekday: *
```

## Post Installation Tasks

Once you have successfully installed eCardMAX 2008 you MUST ensure you remove the entire sql/ directories and /install.php + install\_welcome.html + install\_step1.html + convert.php + convert\_form.html. Leaving these in place is a very serious potential security issue which may lead to deletion or alteration of files, etc. Please note that until these directories are remove eCardMAX 2008 will not operate and a warning message will be displayed.

For maximum security we recommend you should use .htaccess to protect directory greetings/admin

## Setup .htaccess & .htpasswd to protect your admin directory (for Cpanel user only)

If your hosting company supports site Admin Cpanel, then follow step by step below to setup password to protect your admin directory

- Login to your Cpanel by using this URL: <http://mydomain.com/cpanel>

- Click on icon Password Protect Directory, see image below

- Next screen you will see the list directory, browse to folder greetings/admin (Open a folder by clicking on its icon. Select the folder you wish to protect by clicking on its name.)

 /home/ xxxxxxxx /public\_html/standard\_2006/admin

Directory requires a password to access via the web (you must check this to activate password protection).

Protected Resource Name (will display in browser's password mask):

### Active Users

User Name:

Password:

Check the check box then click Save button - next screen click Go back link to go back to previous page to set up user name and password - see image below

 /home/ **XXXXXXX** /public\_html/standard\_2006/admin

 Directory requires a password to access via the web (you must check this to activate password protection).

Protected Resource Name (will display in browser's password mask):

**Active Users**

admin

User Name:	<input type="text"/>	<input type="button" value="Add/modify authorized user"/>
Password:	<input type="text"/>	<input type="button" value="Change Password"/>

Enter your user name and password then click Add/modify authorized user button

- Done
